PROFESSIONAL SUMMARY

Full-stack developer and graphic designer (B.E. CSE 2026, CGPA 8.66/10) who designs and builds React/Next.js and Node.js applications from interface to API. MERN intern at Codelab Systems; built event websites and brand collateral for college fests. Skilled in REST APIs, MongoDB/MySQL and Git-based agile workflows.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS, Framer Motion
- **Backend:** Node.js, Express.js, FastAPI, Flask, REST API Development
- **Databases & Cloud:** MongoDB, MySQL, Supabase, Redis, AWS (foundational), Docker, Vercel
- **Design:** Figma, Canva, branding, poster and brochure design, UI layout
- **Programming & Tools:** Python, SQL, C++, Git, GitHub, Postman, Linux

EXPERIENCE

MERN Stack Web Development Intern | Codelab Systems *Feb 2026 – May 2026*

- Built 5 features in a MERN application serving 50+ users, including responsive React.js dashboard components and a CRUD API in Express.js.
- Designed and tested 8 REST APIs in Postman and integrated a third-party authentication service, improving API response efficiency by 20%.
- Delivered 6 merged pull requests in a 3-person agile team using Git and GitHub.

Intern | KIOCL Limited *Dec 2025 – Jan 2026*

- Built a Python and OpenCV tool that captures CCTV snapshots into Excel records, saving 4 hrs/week across 6 cameras.
- Monitored 3 backend systems and resolved 5 application and database issues.

PROJECTS

Financify – Workforce Financial Tracking Platform | *Next.js, React.js, Express.js, MongoDB, FastAPI, Redis*

- Built a workforce management platform for admins and team leaders with 6 features, including authentication, activity tracking, work-hour monitoring, payroll calculations, and team dashboards, supported by 8 REST endpoints handling 1,000+ activity records.

Nail Disease Detection System – Major Project | *Python, Flask, MySQL, JavaScript*

- Developed and deployed a CNN-based deep learning system that classifies nail conditions into 5 disease classes, achieving 87% classification accuracy on the test dataset.

Portfolio Website | *Next.js, React.js, Tailwind CSS, Supabase, Framer Motion*

- Designed and built a comic-book-style portfolio with an animated mascot, a public recruiter view and an authenticated edit mode, deployed on Vercel.

DESIGN WORK

- Created event branding, poster series, sponsorship brochures and brand collateral for 3 organizations, including Tech Spark 2025 and my college.
- Built a design portfolio PDF with Python and ReportLab to attach to job applications.

EDUCATION

Shree Devi Institute of Technology — B.E. in Computer Science & Engineering *Graduation 2026*

- CGPA: 8.66/10

COURSES & SIMULATIONS

- AWS Cloud Practitioner Essentials — AWS Skill Builder
- Data Analytics Job Simulation — Deloitte (Forage)
- Front-End Web Development Fundamentals (HTML5, CSS3, JavaScript) — Infosys Springboard

ACHIEVEMENTS & ACTIVITIES

- Collaborated with a 5-member Web Team to develop the Tech Spark registration website, supporting 200+ registrations, and contributed to the Sambram national fest website.
- Participated in Atherion 2025 at Canara Engineering College and CODE MEET 2024 at Srinivas University
- Solving DSA problems in Python on competitive programming platforms to strengthen problem-solving.
